Summary

Full-Stack Developer with hands-on experience building AI-integrated web applications using Next.js, React.js, Node.js, Express.js, PostgreSQL, and TypeScript. Proficient in REST API design, JWT authentication, and database optimization. Solved **500+ DSA problems** across LeetCode, GFG, and Code360.

Technical Skills

Languages: JavaScript (ES6+), TypeScript, Python, C++, C

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Responsive Web Design, GSAP

Backend: Node.js, Express.js, REST API Design, JWT Authentication, OAuth, RBAC, Zod Validation

Databases: PostgreSQL, MongoDB, Redis, Prisma ORM, Mongoose, Query Optimization, Schema Design

AI Integration: OpenRouter API, AI Workflow Orchestration, Stateful AI Pipelines, Third-Party AI API Integration

Tools & Concepts: Git, GitHub, Postman, Linux, DSA, OOP, DBMS

Experience

SDIS KIIT

KIIT University, Bhubaneswar

Frontend Engineering Contributor

Mar 2026

- Built and deployed responsive React.js components for the official SDIS event platform, handling **1,000+ registrations** during a live event with zero downtime.
- Implemented reusable component architecture across 10+ pages, reducing UI inconsistencies and speeding up feature delivery by standardizing design patterns.
- Worked closely with the team on code reviews and testing, maintaining consistent quality across the codebase.

MLSA KIIT

KIIT University, Bhubaneswar

Project Wing Frontend Contributor

Jan 2025 – Feb 2025

- Built frontend UI components for a real-time video calling web app using React.js, ensuring cross-browser compatibility and responsive layouts.
- Improved code quality through peer code reviews and QA testing, identifying and resolving bugs before release.

Projects

SkillSynth – AI-Powered Interview Preparation Platform

[\[github\]](#)

- Built a full-stack AI platform using **Next.js, TypeScript, Node.js, Express.js, PostgreSQL, and Prisma ORM**; designed a relational database schema with normalized tables for users, sessions, and interview history.
- Implemented end-to-end **JWT authentication** with secure session management; integrated **OpenRouter API** to power DSA, HR, and aptitude interview modules with AI-generated feedback.
- Built a responsive analytics dashboard with interview history tracking; designed RESTful APIs with Zod validation and modular Express.js middleware for authentication, logging, and error handling.

Kurplex AI – AI-Powered Full-Stack Platform

[\[github\]](#)

- Built a full-stack AI platform using **Next.js, TypeScript, PostgreSQL, Prisma ORM, Redis, and Tailwind CSS**; followed clean architecture principles throughout.
- Developed **10+ RESTful APIs** with JWT authentication, session management, and Zod-based request validation; connected third-party AI APIs to deliver core platform features.
- Created a reusable component library with **15+ composable UI components**; optimized PostgreSQL queries via schema normalization, reducing average API response latency.

Achievements & Awards

- **Smart India Hackathon:** Ranked **Top 8** at the college level; built and demoed a full-stack application within a 36-hour deadline competing against teams from across the institution.
- **DSA & Competitive Programming:** Solved **500+ problems** across [LeetCode](#), [GeeksforGeeks](#), and [Code360](#) covering arrays, trees, graphs, dynamic programming, and greedy algorithms; achieved **Institute Rank 202** on GeeksforGeeks; full stats on [Codolio](#).

Education

B.Tech in Computer Science & Engineering (AI and Machine Learning)

2024 – 2028

KIIT University, Bhubaneswar

CGPA: **7.97** / 10.0
